FUTURES

Index to Volume 18

No 1 February 1986
No 2 April 1986
No 3 June 1986
No 4 August 1986
No 5 October 1986
No 6 December 1986

Articles

Africanization of Africa, The, *Mahdi Elmandjra*, 18.2, 222–229

Alternative perspectives on futures research, forecasting and the scenario task, *Ové Svidén*, 18.5, 681–691

American anticipations: accelerating towards the future—1900–1945, *I. F. Clarke*, 18.5, 698–711

American anticipations: the first of the futurists, *I. F. Clarke*, 18.4, 584–592

American anticipations: war and peace—in the American style, *I. F. Clarke*, 18.3, 464–475

Biotechnology—shape of things to come or false promise?, *Susan Thompson*, 18.4, 514–525

City futures: preparing for tomorrow (Report), *Roger L. Kemp*, 18.3, 446–449

Contraception—the next 25 years, *John A. Loraine*, 18.4, 526–535

"Development decades": a road to recovery, The, *D. Sykes Wilford and Carolyn E. Lochhead*, 18.5, 622–627

Economic impact of European space projects, The, *Patrice Brendle, Patrick Cohendet and Régis Larue de Tournemine*, 18.2, 178–191

Employment and job creation impacts of high technology: what can be learned from the US example?, *J. A. Alic*, 18.4, 508–513

European futures in science and technology (Report), *Riccardo Petrella*, 18.4, 553–579

Evolution of values and ways of life in Western Europe, *Hugues de Jouvenel*, 18.2, 274–291

Fifty-year pulsation in human affairs: analysis of some physical indicators, Cesare Marchetti, 18.3, 376–388

Forecasting and planning in the USSR, Part 1: 1976–1980, *I. V. Bestuzhev-Lada*, 18.1, 68–77

Forecasting and planning in the USSR, Part II: 1981–85, *I. V. Bestuzhev-Lada*, 18.5, 628–637

Forecasting with micros: a cautionary tale (Dossier), *C. D. Beaumont*, 18.1, 84–91

French demographic perspectives, *Gérard Calot*, 18.2, 242–257

From the technological mirage to the social breakthrough, *Michel Godet*, 18.3, 369–375

Fundamental priorities (Essay), *Allen Tough*, 18.4, 536–542

Future of futures studies—the view from Hawaii, The (Report), *Jim Dator*, 18.3, 440–445

Future of human consciousness, The, *Charles D. Laughlin and Sheila Richardson*, 18.3, 401–420

Future relationship between the super powers, The, *Olaf Helmer*, 18.4, 484–492

Futures research and social decision-making—alternative futures as a case study, *M. Mannermaa*, 18.5, 1

Futures research: the need for anticipatory management, *Satish C. Seth*, 18.3, 366–368

Growth of biotechnics: biology, computerization and automation, The, *Joël de Rosnay*, 18.2, 192–204

Idea of the future: une découverte Franco-Britannique?, The, *I. F. Clarke*, 18.2, 325–342

Immigration issue, The, *Jacques Lesourne*, 18.6, 738–747

Improving accuracy of forecasts by a cost-effective method (Methodology), *Charles Brandon and Jeffrey Jarrett*, 18.1, 78–83

Information technologies in French public administration: towards major changes (Report), *Jean Salmona*, 18.2, 318–324

Information technology and organization design, *Amin Rajan*, 18.4, 581–583

Introduction to La Prospective: seven key ideas and one scenario method, *Michel Godet*, 18.2, 134–157

Is the future what it used to be? American views, 1945–1985, *I. F. Clarke*, 18.6, 808–820

Kondratiev waves and the future of British cities, *James Simmie*, 18.6, 787–794

Learning needs in a changing world: role of human resources in a civilization of knowledge, *Mahdi Elmandjra*, 18.6, 731–737

Long-term perspectives for human settlements: the future of the Randstad, the Netherlands, *Alfred Dernison*, 18.1, 40–51

Natural versus man-made technology (Essay), *Dan Sharon*, 18.4, 542–548

New technology and the new services: towards an innovation strategy for Europe, *Richard Barras*, 18.6, 748–772

Ninth French Plan: strategy and implementation (Report), *Daniel Malkin*, 18.2, 309–317

On the future of settlement structures: scenarios on spatial developments in the Federal Republic of Germany, *Gerhard Stiens*, 18.1, 24–39

Organizational maturation and professional management: an indicator of decline in high tech firms, *K. Smith*, 18.5, 671–680

Outline of major topics related to the future of communities buildings and building systems, An, *Walter M. Kroner*, 18.5, 692–697

Patent trend analysis: the case of microgenetic engineering, *P. Wheale and R. McNally*, 18.5, 638–657

Professional relationships and crisis in Japan, *Laurent Schwab*, 18.2, 230–241

Prospective for a new citizenship, *Hugues de Jouvenel*, 18.2, 125–133

Psychology of forecasting, The, *George Wright and Peter Ayton*, 18.3, 420–439

Quantitative macroeconomic projections, *Jean-Michel Charpin*, 18.2, 158–169

Regions and French society: three scenarios of the future, *Josée Landrieu and Robert Abramowicz*, 18.1, 9–23
Research, innovation and renewal in the chemical industry, *Umberto Colombo*, 18.2, 170–177
Scenarios for Europe's cities, *Peter Hall*, 18.1, 2–8
Scenarios for Norway year 2000 (Report), *Terje Osmundsen*, 18.4, 549–552
Science and technology policy in France—from planning to strategy (Report), *Rémi Barré*, 18.2, 298–308
Science, civilization and democracy: values, systems, structures and affinities, *Ilya Prigogine*, 18.4, 493–507
Strategic governmental planning in France (Report), *David Green*, 18.2, 295–297
Systems theory and technological change, *P. P. Saviotti*, 18.6, 773–786
Technical modernism and social conservatism: France's communications 'illness', *René Eksl and Gérard Métayer*, 18.2, 258–273
Telecommunications—the new European frontier, *Gilbert-François Caty and Herbert Ungerer*, 18.2, 205–221
Think tanks—who needs them? Advising a government in a democratic society, *Peter R. Baehr*, 18.3, 389–400
Toward picture-coded information systems (Dossier), *Magoroh Maruyama*, 18.3, 450–452
Using possibility functions for long-term environmental planning, *Bruce Tonn*, 18.6, 795–807
Values in futures studies and long-term planning: two Swedish case studies, *Abdul Khakee and Lars Dahlgren*, 18.1, 53–67
